Introduction to the Post-Secondary Central Data Warehouse, October 2011

The ministry Post-Secondary Central Data Warehouse October 2011 Submission reflects student-level data submitted by 21 of B.C.'s public post-secondary institutions, including colleges, institutes and seven universities. UBC, UVic, SFU and UNBC are not included in these reports.

Nicola Valley Institute of Technology established a Vancouver campus in Fall 2007, assuming responsibility for the former Institute of Indigenous Government.

The following 5 institutions were granted university status as of September 1, 2008, and their names changed at that time:

- Capilano College became **Capilano University**
- Emily Carr Institute of Art + Design became **Emily Carr University of Art + Design**
- Kwantlen University College became **Kwantlen Polytechnic University**
- Malaspina University-College became **Vancouver Island University**
- University College of the Fraser Valley became **University of the Fraser Valley**.

Quality Control

Since June 2002, a data quality management plan has been in place to measure and improve the overall quality of data in the Central Data Warehouse. The ministry acknowledges the effort and co-operation of the public post-secondary institutions in improving the quality of postsecondary enrolment and credential data available for reporting.

Time Periods

The standard reports present information for the following time periods:

Academic Year: September 1 to August 31.

Fiscal Year: April 1 to March 31.

Calendar Year: January 1 to December 31 (used in Credentials reporting only at this time).

November 1st: A count of all students enrolled as of November 1st each year.

A student headcount at Nov. 1 reports the number of students at a single point in time, whereas the other time periods report the number of students over an entire year. As a result, institutions that offer more frequent short-term courses (e.g. the Justice Institute of British Columbia) will have a low headcount as at Nov. 1 despite much higher numbers over a year.

Offshore Students

Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

Unique Headcount

In any given year, some students attend more than one institution. Since these students are included in the headcount of each institution they attend, the sum of all institutions' headcounts will include some students more than once, producing an over-stated total headcount. In the unique headcount, students who are identified as attending more than one institution are only counted once. This number represents the number of students served by the participating institutions as a whole.

Masking

Each number and total has been rounded to the nearest 5. The effects of rounding may result in totals in different reports not matching exactly when they would be expected to match.

For more information about the standard reports, please contact Hugh Judd, Co-ordinator, Central Data Warehouse at Hugh.Judd@gov.bc.ca.

Definition of Program Area

The Student Headcount by Program Area table groups related programs by first coding each program according to the national Classification of Instructional Programs (CIP) taxonomy and then categorizing the 2-digit CIP codes. The resulting Program Area Categories (CIP Clusters) include the following fields of study:

Program Area Categories (CIP Clusters)

Arts and Sciences: liberal arts, humanities, and social and physical sciences

Business and Management: business, management, marketing, office administration and related. Does not include computing

Education: education, including preschool and aides, and library services programs

Engineering and Applied Sciences: agriculture, natural resources and conservation, architecture, computing, engineering and science technologies

Health: health professions and related clinical sciences as well as residency programs

Human and Social Services: legal professions, family and consumer sciences, parks, recreation and fitness, security services, public administration and social services

Trades: apprenticeship programs and other trades training. Also transportation

Visual and Performing Arts: visual art, music, drama, and other fine arts

Personal Improvement and Leisure: primarily leisure and recreational courses, interpersonal and social skills courses, personal awareness and self-improvement courses, and some health-related courses such as First Aid

Developmental programs: Adult Basic Education, Adult Special Education, English as a Second Language training, and other pre-postsecondary level education

Other programs: not associated with a specific program; sometimes general studies

Student Program Headcount

Students enrolled in more than one program in a given year are counted each time, resulting in higher totals than in the (unduplicated) Student Headcount by Institution table. For example, if a student took both an ESL program and a Physics program in the same year, this student would be counted once in each of the Developmental and Arts and Sciences program categories.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Student headcount by institution will not agree with unique sector headcount totals because some students are enrolled at more than one institution.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Student headcount by institution will not agree with unique sector headcount totals because some students are enrolled at more than one institution.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Student headcount by institution will not agree with unique sector headcount totals because some students are enrolled at more than one institution.

4 Where age is 'unknown' age information is not available. Some institutions have separate registrations (e.g. for continuing education activity) that do not facilitate the recording of age.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Student headcount by institution will not agree with unique sector headcount totals because some students are enrolled at more than one institution.

4 Where age is 'unknown' age information is not available. Some institutions have separate registrations (e.g. for continuing education activity) that do not facilitate the recording of age.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Student headcount by institution will not agree with unique sector headcount totals because some students are enrolled at more than one institution.

4 Where age is 'unknown' age information is not available. Some institutions have separate registrations (e.g. for continuing education activity) that do not facilitate the recording of age.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Student headcount by institution will not agree with unique sector headcount totals because some students are enrolled at more than one institution.

4 Where age is 'unknown' age information is not available. Some institutions have separate registrations (e.g. for continuing education activity) that do not facilitate the recording of age.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Student headcount by institution will not agree with unique sector headcount totals because some students are enrolled at more than one institution.

4 Where age is 'unknown' age information is not available. Some institutions have separate registrations (e.g. for continuing education activity) that do not facilitate the recording of age.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Student headcount by institution will not agree with unique sector headcount totals because some students are enrolled at more than one institution.

4 Where gender is 'unknown' gender information is not available. Some institutions have separate registrations (e.g. for continuing education activity) that do not facilitate the recording of gender.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Student headcount by institution will not agree with unique sector headcount totals because some students are enrolled at more than one institution.

4 Where gender is 'unknown' gender information is not available. Some institutions have separate registrations (e.g. for continuing education activity) that do not facilitate the recording of gender.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Student headcount by institution will not agree with unique sector headcount totals because some students are enrolled at more than one institution.

4 Where gender is 'unknown' gender information is not available. Some institutions have separate registrations (e.g. for continuing education activity) that do not facilitate the recording of gender.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Students enrolled in more than one program area in a given year are counted each time, resulting in higher totals than in the unduplicated Student Headcount by Institution table.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Students enrolled in more than one program area in a given year are counted each time, resulting in higher totals than in the unduplicated Student Headcount by Institution table.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Students enrolled in more than one program area in a given year are counted each time, resulting in higher totals than in the unduplicated Student Headcount by Institution table.

1 Student headcount represents the number of students registered in all reported instructional activity, including skills courses (e.g. community education) and developmental activity (e.g. qualifying/remedial). Each year, reported headcounts exclude 3,000 to 4,000 offshore students (not studying in Canada) as some BC institutions deliver programs in other countries.

2 International students are those students who pay an international fee for at least one course in a period.

3 Students enrolled in more than one program area in a given year are counted each time, resulting in higher totals than in the unduplicated Student Headcount by Institution table.

Total Credentials Awarded	745	5,285	940	7,930	17,565	2,190	34,655

1 Each year, these counts exclude 600 to 1,200 credentials awarded to offshore students (not studying in Canada) as some BC institutions deliver programs in other countries. Credentials in short certificate programs are not included at this time. Credential numbers presented represent an undercount of the total credentials earned since students often must make an application to have their credentials awarded.

2 Baccalaureate Degree category includes Baccalaureate Degrees and First Professional Degrees.

3 Diploma category includes Graduate Diplomas, Post-degree Diplomas, Advanced Diplomas, and Diplomas.

4 Developmental credentials are awarded upon completion of a developmental program (high school diploma, ESL certificate).

5 Credential types listed are defined by the ministry as part of the Central Data Warehouse submission process and may not match the naming used at the individual institutions.
