## Immediate and Delayed Transitions from Secondary School Graduation to Post-Secondary Education in BC

### Introduction

In the spring of 2005, the Ministry of Advanced Education on behalf of the 22 Central Data Warehouse (CDW) participating institutions, the Ministry of Education, and the BC Universities signed an agreement to establish a formal mechanism that protects individual privacy while enabling the exchange of personal information between the parties for the purpose of investigating student transitions, mobility, and outcomes from the Kindergarten-Grade 12 (K-12) education system to the public post-secondary system. This report summarizes the findings of the second research project undertaken by the Student Transitions Project.

The main research question of Student Transitions Project – Research Project #2 involved immediate and delayed transition into BC public post-secondary institutions. A glossary is provided at the end of this report. There have been significant additions to the Research Project #2 compared to Research Project #1, which dealt with immediate entry students only. The primary addition was the inclusion of multiple years of data to allow examination of one cohort of immediate transitions and two cohorts of delayed transitions. Other additions include the academic GPA of the students and the post-secondary fields of study.

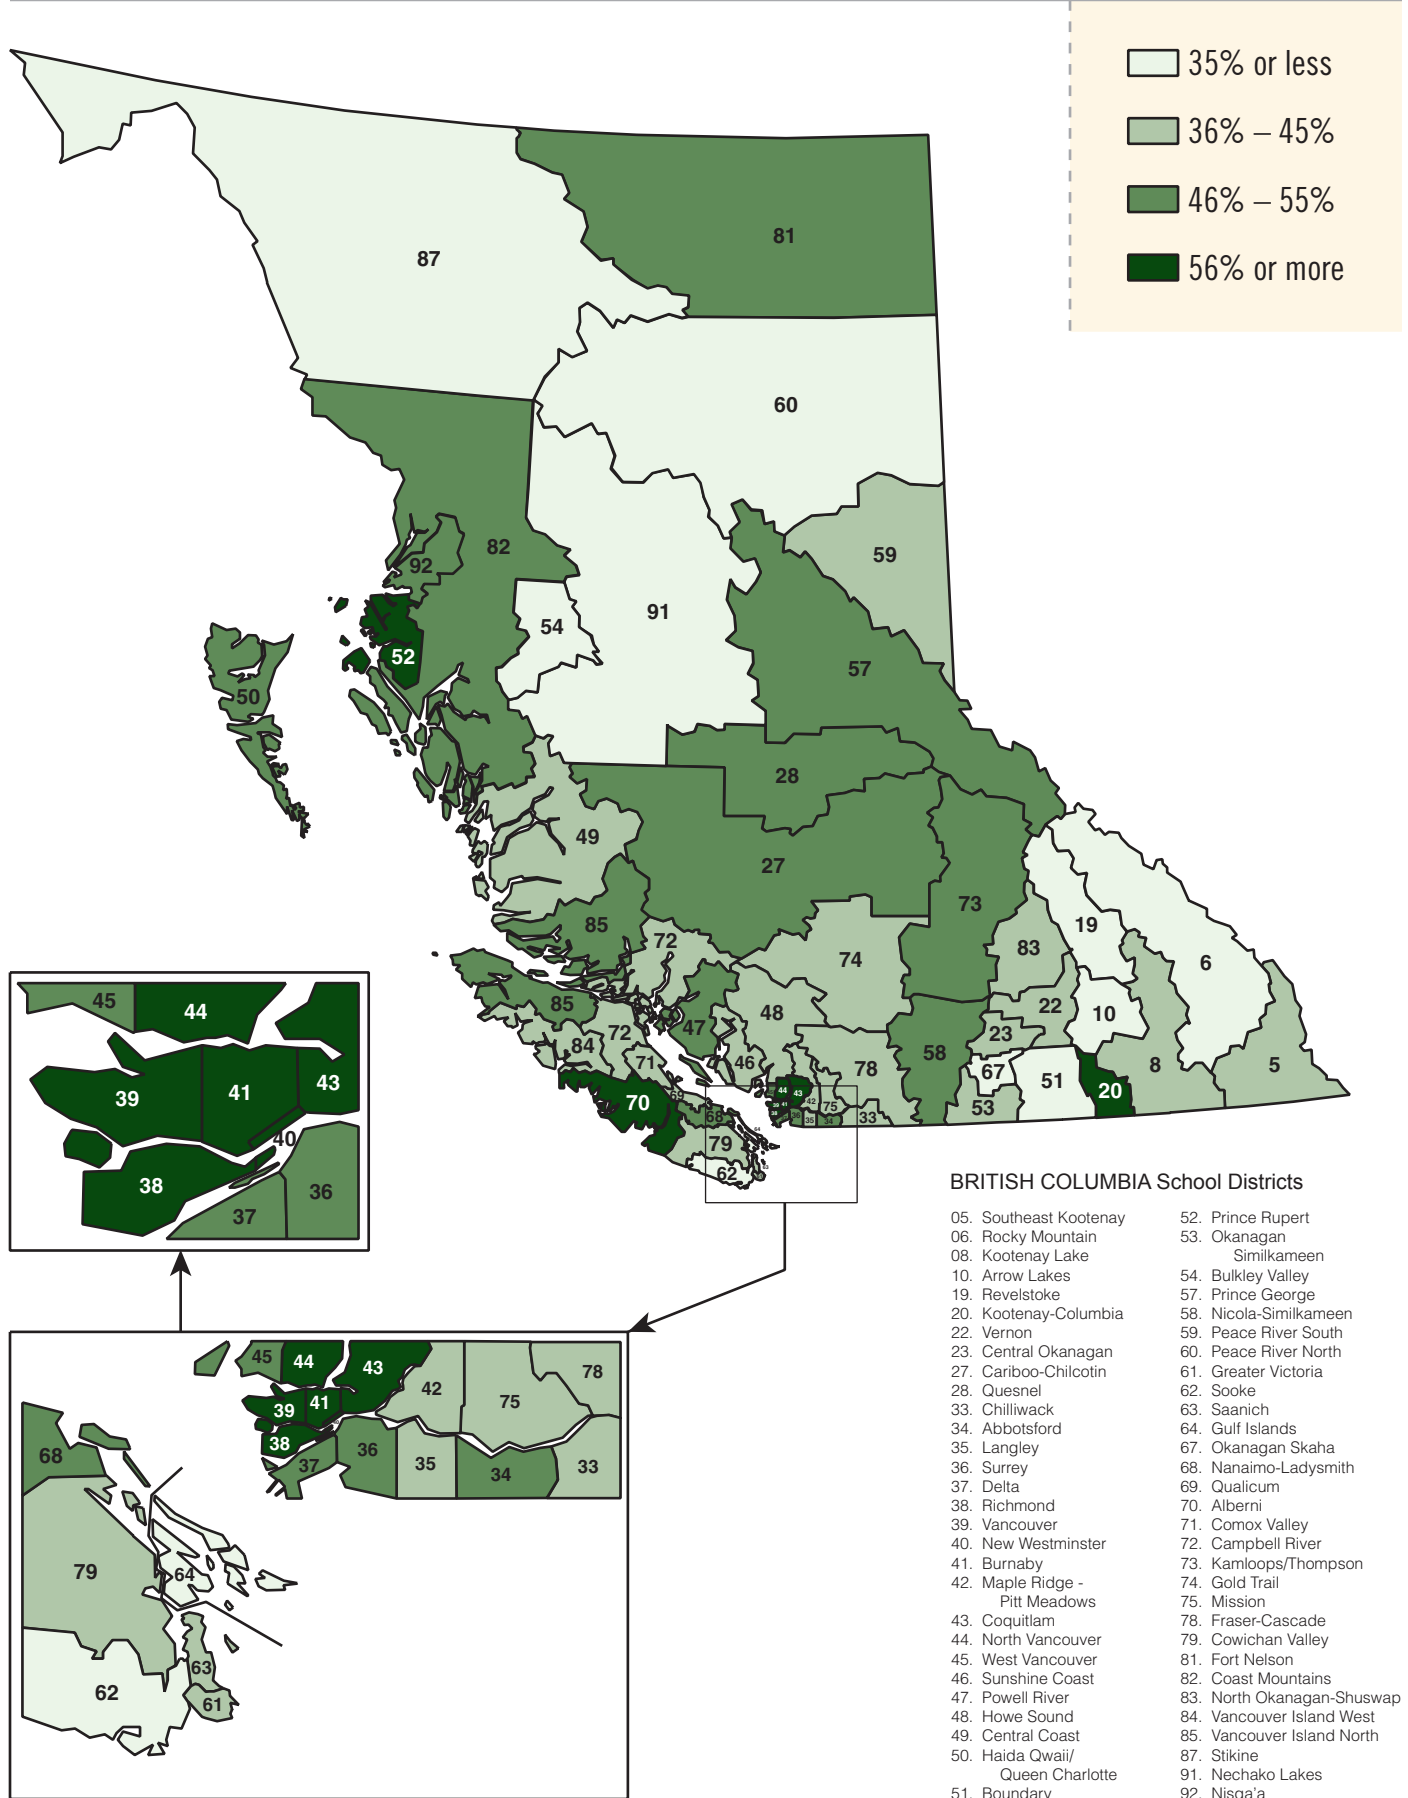

Expanding on Research Project #1, the primary question being investigated was “What is the nature and distribution of the transition of students from the K-12 education system into and among BC public post-secondary institutions over a multi-year period?” As with Research Project #1, the primary research question would be investigated by examining the following sub-questions:

- i. What were the demographic characteristics of the transitioning and non-transitioning graduates?
- ii. How many BC students make a transition to the BC public post-secondary system after they graduate?
- iii. Where are these students from?
- iv. Where did these students attend?
- v. What is the academic GPA of these students?
- vi. What fields of study do these students enter into?

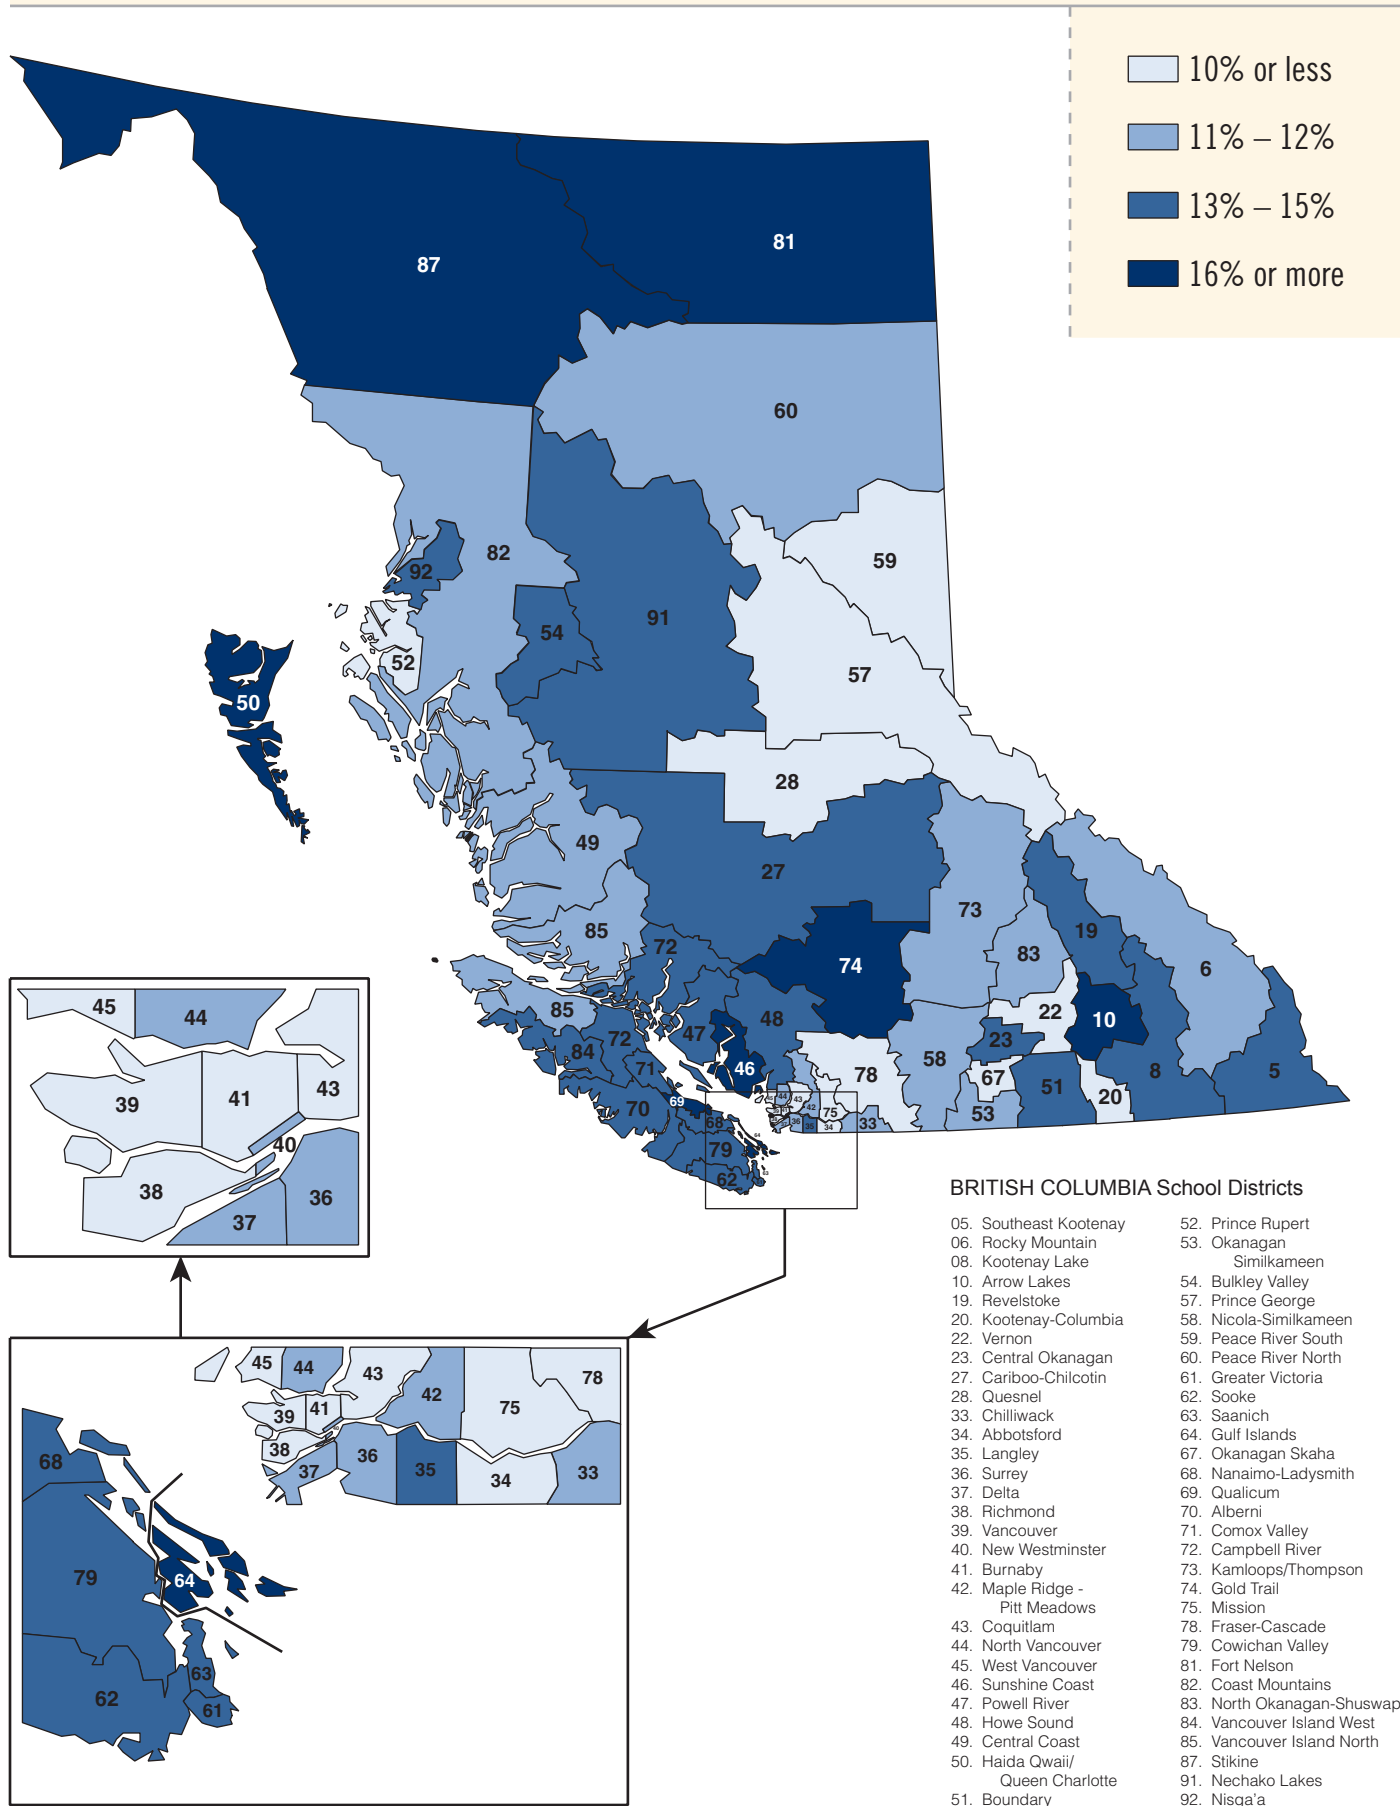

This report is intended to provide data to begin answering the questions above.

A highlights document, which presents the key findings from Research Project #2, is available on the website. [http://www.aved.gov.bc.ca/student\\_transitions/](http://www.aved.gov.bc.ca/student_transitions/)

**Notes:**

- (1) Immediate transitions (I) are students that leave secondary school in one school year and enter a PSI the following school year.
- (2) Delayed One Year transitions (D1) are students that leave secondary school in one school year and enter a PSI after a school year break. For example, the student leaves in 2001/02 and goes to a PSI in 2003/04.
- (3) Delayed Two Year transitions (D2) are students that leave secondary school in one school year and enter a PSI after at least two school years break. For example, the student leaves in 2000/01 and goes to a PSI in 2003/04 or later.
- (4) No Transitions (NT) are students that did not make the transition to a PSI yet.

**Notes:**

- (1) Graduates include both Aboriginal and Non-Aboriginal students where Aboriginal students counted are Aboriginal Overall (which is either Aboriginal Ever or Aboriginal collected when they apply to a PSI). Aboriginal Ever is a self-declared Aboriginal student in any year in the K-12 system.
- (2) Immediate transitions (I) are students that leave secondary school in one school year and enter a PSI the following school year.
- (3) Delayed One Year transitions (D1) are students that leave secondary school in one school year and enter a PSI after a school year break. For example, the student leaves in 2001/02 and goes to a PSI in 2003/04.
- (4) Delayed Two Year transitions (D2) are students that leave secondary school in one school year and enter a PSI after at least two school years break. For example, the student leaves in 2000/01 and goes to a PSI in 2003/04 or later.
- (5) No Transitions (NT) are students that did not make the transition to a PSI yet.

**Comments:**

- (1) Immediate transitions for all graduates to the various post-secondary institution types are relatively stable. Colleges have seen a slight decrease in immediate transitions over the three year period.
- (2) Institutes or Agencies have the least amount of immediate transitions at 3% of graduates and Universities have the highest amount of immediate transitions at 17%.
- (3) There is an overall drop of 3.7% between 2001/02 and 2003/04 in the number of immediate entry graduates attending a post-secondary institution.

- (5) No Transitions (NT) are students that did not make the transition to a PSI yet.

**Comments:**

- (1) Aboriginal immediate transitions into Colleges are on the rise and colleges have attracted the greatest percentage of Aboriginal graduates.
- (2) For both categories, institutes or agencies and universities, Aboriginal immediate transitions are relatively stable over the three year period. Institutes or agencies have attracted the smallest percentage of Aboriginal graduates.
- (3) University Colleges have seen a slight decline in Aboriginal immediate transitions over the three year period with 2002/03 exhibiting the largest decline.

**Comments:**

- (1) Non-Aboriginal immediate transitions into Colleges are on the decline
- (2) Institutes or agencies entrants are relatively stable over the three year period and have attracted the smallest percentage of Non-Aboriginal graduates.
- (3) Universities have attracted the greatest percentage of Non-Aboriginal graduates and immediate transitions has slightly increased over the three year period.
- (4) University Colleges have seen a slight decline in Non-Aboriginal immediate transitions over the three year period.

**Notes:**

- (1) Aboriginal students counted are Aboriginal Overall (which is either Aboriginal Ever or Aboriginal collected when they apply to a PSI). Aboriginal Ever is a self-declared Aboriginal student in any year in the K-12 system.
- (2) Immediate transitions (I) are students that leave secondary school in one school year and enter a PSI the following school year.
- (3) Delayed One Year transitions (D1) are students that leave secondary school in one school year and enter a PSI after a school year break. For example, the student leaves in 2001/02 and goes to a PSI in 2003/04.
- (4) Delayed Two Year transitions (D2) are students that leave secondary school in one school year and enter a PSI after at least two school years break. For example, the student leaves in 2000/01 and goes to a PSI in 2003/04 or later.
- (5) No Transitions (NT) are students that did not make the transition to a PSI yet.

**Notes:**

- (1) Immediate transitions (I) are students that leave secondary school in one school year and enter a PSI the following school year.
- (2) Delayed One Year transitions (D1) are students that leave secondary school in one school year and enter a PSI after a school year break. For example, the student leaves in 2001/02 and goes to a PSI in 2003/04.
- (3) Delayed Two Year transitions (D2) are students that leave secondary school in one school year and enter a PSI after at least two school years break. For example, the student leaves in 2000/01 and goes to a PSI in 2003/04 or later.
- (4) No Transitions (NT) are students that did not make the transition to a PSI yet.

**Comments:**

- (1) The largest numbers of immediate transitions enter Humanities and Social Sciences for the College field of study and Arts, Fine Arts, Social Sciences, and Humanities for the University field of study.
- (2) There are also large numbers of immediate transitions that enter Commerce and Administration, and Developmental Programs in the College field of study and Science in the University field of study.
